BEST OF THE BEST: The Sony Xperia Z1 Android Smartphone

Sony Mobile has done it again with the [Sony Xperia Z1](#) smartphone. This premium upgrade to the Xperia Z will not disappoint. If the iPhone 6 is considered chic, the Xperia Z1 is fine elegance. But don't let the luxurious looks fool you, this thing can handle the elements. It is completely waterproof up to five feet. Yep, that's right, you can shoot video and photos under water. Speaking of the camera, as the superior leader in optics, Sony delivers an incredible 20.7 mega-pixel rear-facing camera. The photos are stunning and the 1080p HD video recording produces beautiful footage. The large 5 inch screen (1920 x 1080) delivers a crisp and immersive experience. You will love the speedy performance of this phone!

As you know, I am a big fan of Sony because of their consistent high quality in everything they make. And I respect their drive to continually improve. In fact, as incredible as the Z1 is, Sony has already released the Z2 and Z3; with expectations of the Z4 being released later this year. It is this dedication to deliver the industry's best products that keeps me a proud Sony customer. I always rest assured I know I am buying the best of the best when I buy Sony.
